

# Weidmann Technical Seminar on Insulation Technology

**W**eidmann Group, the global leader in transformer insulation technology with over 140 years of experience, is a solution provider of insulation and monitoring systems in oil-immersed power and distribution transformers, facilitated by their full-fledged expertise in engineering, testing and diagnosis of oil/solid insulation systems.

In addition to this, Weidmann is also known for their high-profile and high-quality seminars organized all over the world. A technical seminar on insulation technology will be held in Wuhan, China,

**In addition to global recognition for leadership in transformer insulation technology, Weidmann is also known for the high-profile and high-quality seminars they organize all over the world**

from 26-28 October 2017. This is a traditional seminar that Weidmann organizes in China, and the audience will not only include participants from China, but also participants from the entire Asia-Pacific region.

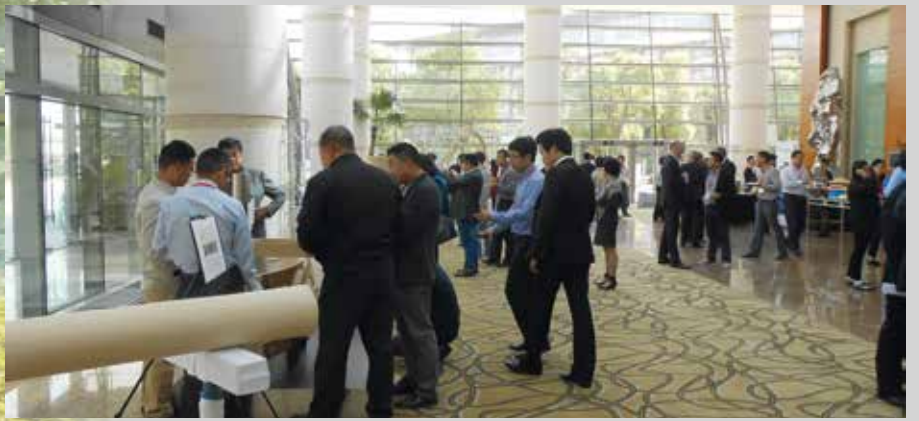

The venue of the seminar is a stunning property of Hilton Hotels and Resorts – Hilton Wuhan Optics Valley.

## The preliminary agenda:

**October 26 (Thursday):**  
Arrival and reporting to venue

**October 27 (Friday):**  
Seminar

- Corporate developments at Weidmann
- Shanghai research and development centre, Acetylene Sensor Development: Patented innovation
- Weidmann insulation innovation overview
- Weidmann electrical paper overview: Power transformer applications (magnet wire wrapping / RIP bushings) & distribution transformer applications (DPE, Tuf-Flex, redesign evaluation)
- Alternative insulation liquids
- Moisture migration in pressboard, shrinkage and swelling issues
- Weidmann laminated board versus plywood and Chinese manufactured laminated board
- Engineering services: 3D electromagnetic/thermal/dielectric studies of transformer
- Static winding clamping force and F Sensor
- Transformer insulation aging: Better management of transformers
- UHV DC insulation

**October 28 (Saturday)**

- Visit to Weidmann Electrical Technology (Jiaxing) Co. Ltd. Wuhan branch
- Half-day technical symposium

In order to apply for this one-of-a-kind seminar, contact Weidmann:
